

We believe that service in any field is very important.

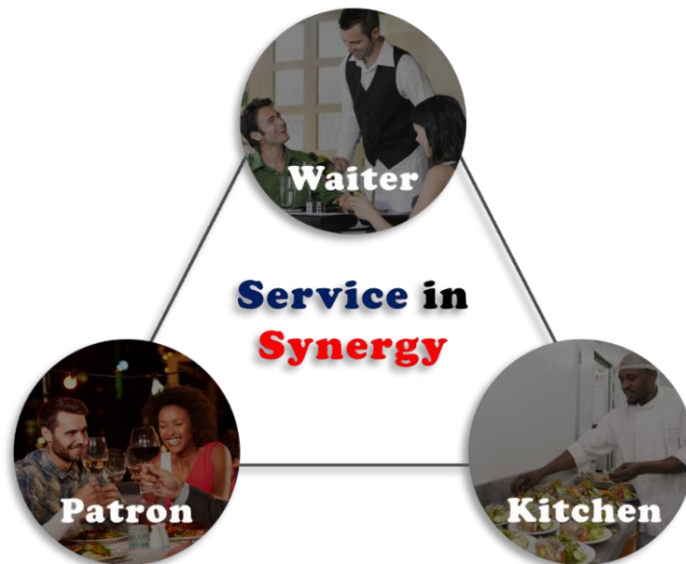

In any restaurant the waiter is the true ambassador.

Service in Synergy

Service provided creates a lasting impression. We have taken 20 years of proven wireless technology, and provided a seamless solution, allowing restaurants to offer perfect service.

PerfectWaiter allows any restaurant to offer a personal waiter with immediate response times and excellent service.... leaving a lasting, GREAT impression.

This system connects your patron to the waiter and the kitchen seamlessly. Management is included in the transactional loop continuously. Installation is completed in minutes – no cables needed!

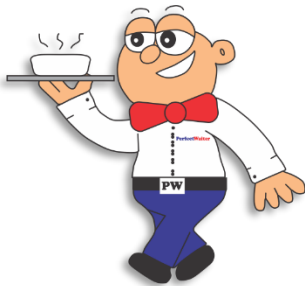

We ensure Perfect Service... All the Time.

What we can do for You:

- Keep your Customer in touch with his Waiter.
- Ensure stress free Meal times.
- Fast and accurate waiter response time.
- Ensure Fresh Hot Food on Time from the Kitchen.
- Uninterrupted meal time for your Customer.
- Background Recording of all Table to Waiter and Kitchen to Table activities.
- Eliminate walkouts due to NO SERVICE

Call: 072 680 5492

How do we do this

1. Each Table gets a **PerfectWaiter** unit T.
2. Each Waiter gets a **PerfectWaiter** unit W.
3. The Kitchen gets a **PerfectWaiter** unit K.
4. Tables are paired to Waiters to suite your establishment.
5. Each Table unit has 4 buttons:
 1. Call the Waiter.
 2. Not Allocated Yet
 3. Customer/Waiter Clear request.
 4. Bring the Bill.
6. Each Waiter unit has a 4-digit LED display and a small notification sounder, with a record memory of 100 calls buffer.
7. This display's C024 or b024 for (Call from table 24 or bring the Bill for table 24) **and** (F024 for the Waiter to collect the food from the Kitchen for Table 24).

Operation of **PerfectWaiter**:

1. Customer presses the Call Button (Button1).
2. The Light on T-Unit shines Red.
3. W-Unit Beeps + C024 on display.
4. W-Unit acknowledges>>>T-Unit turns Blue. (Automatically)
5. The Waiter goes to Table 24 presses (Button3).
6. The Customer tells the waiter his order.
7. After the meal is completed the Customer presses the Bill request button (Button4).
8. The Light on T-Unit shines Green.
9. W-Unit acknowledges>>>T-Unit turns Blue. (Automatically)
10. W-Unit Beeps + b024 on display.
11. The Waiter prepares the bill and brings it to table 24.
12. The Waiter Presses Button3 to cancel the request.

ALL DONE! HAPPY CUSTOMER, HAPPY WAITER!
